

BJCree - Documentation

Thank you for your interest in the BJCree fonts. The BJCree typeface was originally designed in conjunction with the Naskapi community in the 1990s. When it was subsequently re-encoded for Unicode, coverage was extended for all the Cree (and Ojibwa) languages.

This documentation is a set of HTML pages that can be viewed in any modern web browser. PDF versions of these pages are also provided. This content, plus download links and a contact form, are available from the [BJCree site](#).

- [About](#) — Information about this project and SIL International
- [Resources](#) — Help with installation and use
- [FAQ](#) — Common questions and answers
- [Design](#) — History and background of the design
- [Character set support](#) — Details of Unicode characters that are supported
- [Font features](#) — Using smart font features
- [Support](#) — How to get additional support
- [Developer information](#) — How to modify and build the fonts
- [Versions](#) - Sources for alternate versions
- [Version history](#) - Complete version history

Additional information is also provided in other project files: [README.txt](#), [OFL.txt](#), [OFL-FAQ.txt](#), and [FONTLOG.txt](#).
